

HSA – Health Savings Account

A Better Way to Pay for Healthcare — Today and Tomorrow

As healthcare costs continue to soar, finding ways to secure affordable health benefits is a persistent challenge. Now you can save money on out-of-pocket healthcare expenses with a [Health Savings Account](#) (HSA) solution from MEDSURETY.

An HSA is a tax-advantaged savings account that is used in combination with a Consumer Directed Health Plan (CDH) and gives you a way to manage healthcare costs. You can use the HSA funds to cover qualified medical expenses—from co-payments at the doctor’s office to pharmacy bills, dental care, vision care, and more while you control costs and earn tax advantages.

The MEDSURETY Difference

- **No fees** for online account use
- Access to **self-help tools** such as savings calculators, text messaging alerts, videos and FAQs
- **Maximize savings**—market leading interest rates on secure, FDIC deposits and investment options with best in class mutual funds

How HSAs Work

An HSA allows you to saving money tax-free to pay for medical expenses today and in the future. Earnings grow tax-free and there are no taxes paid on withdrawals used to pay for eligible medical expenses. As balances grow, you and or families may choose to invest in a variety of mutual funds¹.

There is no “use it or lose it” condition. Any unused funds remain in the account and continue to accrue interest until needed.

¹ Mutual fund accounts are not FDIC insured, have no bank guarantee and may lose value.

¹ Mutual fund accounts are not FDIC insured, have no bank guarantee and may lose value

INTEREST RATE DISCLOSURE

Cash account balances are initially deposited in an FDIC-insured interest-bearing account. The following interest rate and annual percentage yield (APY) apply effective as of November 1, 2015.

CASH ACCOUNT BALANCE	INTEREST RATE	ANNUAL PERCENTAGE YIELD
\$0.01 - \$1,999.99	0.05%	0.00% - 0.05%
\$2,000 - \$4,999.99	0.10%	0.05% - 0.08%
\$5,000 - \$9,999.99	0.25%	0.08% - 0.17%
\$10,000 – 24,999.99	0.35%	0.17% - 0.28%
\$25,000 and up	0.50%	0.28% - 0.50%

The daily balance method is used to calculate interest on the cash account balance. This method applies a daily periodic rate to the principal balance in the cash account each day. Interest rates are paid only for the portion of the daily balance that is within each tier. The interest rate and APY may change at the custodian's discretion, at any time. Interest begins to accrue no later than the business day the custodian receives credit in the cash account for the deposit of noncash items (i.e. checks). Interest is compounded and credited to the cash account monthly. If the cash account is closed before interest is credited, the account will not receive the accrued interest for that month.
