

Investing HSA Dollars

Use your HSA like a 401K

Most people don't know that they can use their HSA money like a retirement account where your money:

- Goes in Tax Free
- Grows Tax Free
- Can be Used on Medical Expenses Tax Free

How to Do It

Just like a 401K or an IRA, you can choose to put your money into managed funds, or simply leave them as cash. If you're able to pay for medical bills out of pocket, these funds will grow, and you can save year over year for large medical expenses!
